

GJ Laptop Kit

2ND GENERATION

SOFTWARE AGNOSTIC:
THE CHOICE IS YOURS!

Welcome to the perfect eDiscovery experience: a powerful mobile solution for users on the go.

Your new George Jon (GJ) Laptop Kit will have you up and running with a mobile eDiscovery environment in no time. Specifically built to optimize eDiscovery functionality, the Laptop Kit includes comprehensive software and hardware maintenance, monitoring, and support from GJ's world-renowned team of infrastructure/application specialists.

A complete eDiscovery solution

Legal holds, processing, review, analytics, and production: your Laptop Kit crushes cases on the fly.

Free annual updates

You'll receive free annual software upgrades for your chosen software provider with rental/purchase of a Laptop Kit.

Industry leading technical support

You have direct access to GJ's professional support team, with up to three (3) Remote Emergency Support Calls per month and free next business day hardware replacement.

Workflow advice

With fifteen years of eDiscovery experience, our team has the answers your most complex workflow questions.

Laptop Kit: Common Use Groups

- Perfect for law firms and corporations looking to immediately process/review under 400 GB of data, or import less than 1TB of data, in cases with fewer than 10 users.
- Global enterprises that require an easy solution for cases in remote locations with strict data privacy laws.
- Ideal for Service Providers to quickly accommodate small, on-prem client projects.

Laptop Kit Companion: Kit Recycler

Are you continually in a wash, rinse and repeat cycle with Laptop Kit deployments? The Kit Recycler securely deletes data from the laptop and deploys the latest, ever-changing GJ best practices and app, OS, and environmental updates. Ask us for details!

GJ Laptop Kit Specifications

4 Drives: 3 Production, 1 Backup
