

On-Demand Services

Staff Augmentation

Get the staff you need, as needed.

eDiscovery is a niche field. Instead of throwing unnecessary human and capital resources at your most mission-critical engagements, allow George Jon's team of eDiscovery Specialists to step in, as a seamless extension of your operation, to get the job done properly.

Staffing in-house, in-demand Database Administrators (DBAs) is a costly endeavor for businesses, law firms and service providers. These expensive resources are not billable, forcing you to pump big money into a loss category (just to keep the wheels turning) at a time when most companies are working to preserve precious capital. And worst of all, firms can usually only afford a small number of DBAs who offer limited availability and are unable to support business growth, international locations, or after-hours needs. George Jon, the leader in managed services for the legal world, offers a solution to this expensive, mission-critical dilemma.

Our Staff Augmentation service offering allows firms to significantly reduce operational expenses while gaining better, deeper, and more affordable coverage for vital document management and legal practice systems (accounting, time entry, contracts, analytics, production, eDiscovery, etc.).

The service entails proactive systems monitoring and maintenance, detailed reporting and collaboration with stakeholders, optimized performance, 24x7 support, development of standards and procedures for in-house staff / project managers, and peace of mind in knowing that you are getting best-in-class, cost-effective database oversight. Best of all, this lasting solution is eminently elastic, able to expand and contract as your needs evolve, delivering a solution both for today and whatever comes next. Drive your business, enhance your capabilities, and rely on a team of experts to help you be more productive and profitable with data-driven insights and operations.

The Benefits of GJ Staff Augmentation:

- Our on-demand pool of globally-dispersed SQL DBAs can quickly scale in lockstep with your business requirements, providing elasticity and eliminating the need to hire/train expensive in-house resources.
- Flat-rate, predictable monthly fees are well below the cost of in-house assets (\$250K/year), saving you hundreds of thousands of dollars annually.
- GJ's Database Administrators/Engineers, with 15+ years of industry-specific experience and best practices, have greater knowledge and access to global best practices than in-house IT staff.
- 24/7/365 pool of SQL experts provides perpetual oversight and support (versus traditional 9-to-5 staff).
- Every international case/location can be managed, extending your coverage across 6 continents and every time zone.
- Optimized, standardized and reliable performance from revenue-generating systems (accounting, billing, contracts) creates consistency across your business.
- We support law firms, corporations and service providers. Often, we also support their clients (Fortune 100 banks and corporations, Big 4 consultancies, government agencies), providing end-to-end SQL expertise and efficient database workflow/optimization that delivers enhanced profitability for all parties.
